# Carbowax 20M Non-Bonded Phases

- Polyethylene glycol, MW 20,000
- Equivalent to USP Phase G16

*Unlike DB-WAX, CAM, Carbowax 20M and OV-351 GC columns are not bonded and cross-linked, therefore solvent rinsing is not recommended .*

## Test Mix:

Part Number: 200-0020

## Similar Phases:

DB-WAX, HP20M

### CARBOWAX 20M ORDER GUIDE:

| Inner Diameter<br>(mm I.D.) | Length<br>(meter) | Film Thickness<br>(µm) | Temperature Limits<br>(°C) | Part Number     |
|-----------------------------|-------------------|------------------------|----------------------------|-----------------|
| 0.20                        | 25                | 0.10                   | 60 to 220/240              | <b>118-2021</b> |
| 0.20                        | 50                | 0.10                   | 60 to 220/240              | <b>118-2051</b> |
